Education

Chandigarh University - 8.39 CGPA

Junior, B.E in Computer Science and Engineering

Mohali, Punjab

*August 2020 – August 2024**

Hem Sheela Model School - 94.6%

12th, Non-Medical Computer Science

Durgapur, West Bengal

April 2018 – March 2020

Projects

Krishi-Sahyog [Android-Kotlin, FireBase]

March 2023

- **Problem:** Digitally helping Farmers to get fair Crop value
- **Solution:** Connecting Farmers directly with Buyers, cutting out the middleman and boosting earnings for both parties. Introduced a Bidding System for Buyers to bid on a Farmer's crop listing, providing a fair price and catering to market demand. Full-fledged product offering end-to-end services, including invoicing, contract generation, and Logistic support.

Sign-Ease [Android-Kotlin, Hello-Sign API (Dropbox), FireBase]

September 2022

- **Problem:** Digital Approvals in documents/leaves for hostel & college students
- **Solution:** Developed an Application for CRUD operations on Signature Requests with pre-built Templates and to-the-point information. The project gets your applications signed by the respective authority seamlessly hence saving time, labor as well as Paper. Real-time application tracking enabled to check request status.

Intelli-Tags [Android-Kotlin, Modzy APIs, AWS]

Dec 2021

- **Problem:** Instant Hashtags generator for blogs and media content for adequate promotion
- **Solution:** Built an Application using Modzy (now Smarty) ML models (APIs) which analyses Media files like Text, Images, and Video and instantly generates relevant Social Media Tags for your Content thus Boosting their engagement and reach by up to 2x globally.

Feedback Prime [Android-Kotlin, Symbl.ai API, Sawo-Labs API]

Oct 2021

- **Problem:** Smart Feedback Analysis for Support Engineers to avoid useless Feedback/Survey forms
- **Solution:** Using Symbl.ai Async API and Conversation-intelligence, created an app that analyses the Media file and processes it to Auto-generate a detailed Feedback Report of the Conversation that reduces manual work for both Engineers and the Customers.

Technical Skills

Languages: Kotlin, Java, C++, JavaScript, Python

Frameworks: PostgreSQL, Firebase, Node.js, Express

Developer Tools: Android-Studio, Azure, AWS, Postman, Google Cloud, Docker

Libraries: MongoDB, Volley, Material Ui, Room, Retrofit

Licenses & certifications

- Building an Android App with Jetpack Libraries
- Android Development: Retrofit with Kotlin
- Cisco Networking Essentials

Awards and Volunteer Experience

- **Led a team to Top-10 in API Fest organized by Postman:** A global event to spread awareness about APIs and encourage peers to learn and build a product
- **Won API World Hackathon's and API-Hacks' Sponsor Track from Symbl.ai for Feedback Prime :** Received recommendation from Symbl.ai to use this as an actual business model
- **Microsoft Student Ambassador-Alpha :** One of the biggest global community which brings students from all over the world who are passionate of technology, learning and helping the community
- **Postman Student Expert :** A program designed to spread API knowledge and help the students get trained on APIs.
