Experience

Nokia

AI Research & Development Intern

Gurugram, Haryana

July 2023 - Present

- Conducted extensive research, integrating advanced conversational AI using **LlamaIndex**
- Using **LLMs**, implemented Retrieval Augmented Generation (**RAG**) for improved interactions for **30+ clients**
- Reduced support tickets by **70%**, decreased escalation to experts by **30%** resulting in **savings upto 100kE**
- Achieved **57%** average response time reduction and **75%** accuracy level
- Collaborated directly with Director of Nokia, gaining invaluable mentorship

Projects

Krishi-Sahyog | Android-Kotlin, FireBase | [GitHub](#)

March 2023

- Revolutionizing crop sales with a **Bidding-introduced** digital marketplace
- Incorporated **MVVM** Architecture, Portal separation for both Farmer and Trader, used **Firebase** tools like **Auth**, **Firestore**, and **Storage**. **Multi-Language support** integrated with Locale
- Increased earnings for farmers and received recognition from **Rajasthan CM**

Sign-Ease | Android-Kotlin, Hello-Sign API (Dropbox), FireBase | [Play Store](#)

September 2022

- A Digital platform to **Sign** and **track** all Hostel Leaves
- Using **Hello Sign API**, made a **CRUD** App along with **client-data separation**. **MVVM** with **Retrofit** dependency, **Data class** for response parsing, and **QR generation** with **embedded URLs**
- Digital and Legal record of leaves pooled with over **10,000+ Student's safety**

Suite-Converter | Python, Speech Recognition | [GitHub](#)

January 2021

- Developed **one-stop solution** with **Voice Assistant** for major **file conversions**
- Utilized libraries including **docx2pdf**, **pdf2docx**, **gTTS**, **SpeechRecognition**, and **pysttx3** for file conversions
- Implemented **Auto-detection of Directory path** for organized file management

Technical Skills

Languages: C++, Python, Kotlin, Java, Javascript

Libraries/Frameworks: LlamaIndex, Langchain, Flask, Streamlit, Gunicorn, SQL, MongoDB, Room, Retrofit, Material UI, Firebase, Node.js

Developer Tools: Google Cloud, JupyterLab NoteBooks, AWS, GitHub, Jira, Postman, Android-Studio

Education

Chandigarh University - 8.16 CGPA

Final Year, B.E in Computer Science and Engineering

Mohali, Punjab

August 2020 – August 2024*

Licenses & certifications

- Building an Android App with Jetpack Libraries
- Android Development: Retrofit with Kotlin
- Cisco Networking Essentials

Awards and Volunteer Experience

- **Led a team to Top-10 in API Fest organized by Postman:** A global event to spread awareness about APIs and encourage peers to learn and build a product
- **Won API World Hackathon's and API-Hacks' Sponsor Track from Symbl.ai for Feedback Prime :** Received recommendation from Symbl.ai to use this as an actual business model
- **Microsoft Student Ambassador-Alpha :** One of the biggest global community which brings students from all over the world who are passionate of technology, learning and helping the community
- **Postman Student Expert :** A program designed to spread API knowledge and help the students get trained on APIs.
